

Remarks

The Office action allowed claim 37. Claims 30 and 36 have been rewritten in independent form, and are therefore believed to be allowable over the objection of record. Claims 38-47 depend from allowed claims, and are thus allowable as well.

The drawings have been corrected, to overcome the objection to non-illustration of certain figures, by providing an air turbine, a reduction drive, a feather duster, and a lambswool duster. The corrections are shown on the enclosed new, replacement, and annotated sheets of drawings. The annotated sheets are marked to show the changes.

35 U.S.C. § 132 (Amendments Supported)

The claims are supported by the claims and drawing figures as originally filed. The added claims are essentially the same as dependent claims previously presented in a preliminary amendment. Therefore, no new matter has been added.

Please charge any additional fees or credit overpayment to the deposit account of McAndrews, Held & Malloy, Ltd., Account No. 13-0017.
